Re: Water Right No. G2-28861

Dear Ms. Conwell:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reasons below:

- Due diligence is shown in development of this project. All 12 lots in the subdivision have been sold to individual owners and three residences have been constructed to date. The water system is currently active but water use is very limited.
- Residential construction is delayed due to local economic conditions and the development plans of individual lot owners. Additional time is needed to develop remaining lots and achieve full use of water.

The new deadline to submit your *Proof of Appropriation of Water* is **September 1, 2019**.

Permit Conditions

This permit requires you to submit source meter data by January 31st each year. You must complete the enclosed metering forms and submit data for 2013 by January 31, 2014 or contact Eva Richards at (360) 407-6643 to set up an on-line reporting account.

This permit also requires measurement of chloride levels during the months of April and August. We have not received chloride test results since 2004, just before the permit was assigned to Eagle View Lot Owners Association. If you have not been measuring chloride concentrations, you must begin testing in April, 2014.

If you have any questions regarding this extension or permit conditions, please contact Marie Peter at (360) 407-0279 or mpet461@ecy.wa.gov.
